## Doubling Farmers' Income Through Technology

Shri Narendra Modi  
Hon'ble Prime Minister, Government of India

“ We are working towards ensuring that the incomes of our hardworking farmers doubles by 2022. For that, we are facilitating proper assistance wherever required. We have faith in the farmers of India. ”

“Gujarat has always been at the forefront in introducing innovative measures in agriculture and horticulture and I am very confident that the success in Gujarat would pave way for other states to follow the same model and make the nation (India) prosperous. ”

Shri Vijaybhai Rupani  
Hon'ble Chief Minister, Government of Gujarat

## **OUR SERVICES**

### **WHAT IS SILAGE**

- **Fodder is packed in airtight condition to preserve its nutritional value, improve its quality and taste and to make it easily digestible**
- **This is called silage or pickle of the fodder.**
- **Corn silage is popular forage for Ruminant animals.**
- **It is formed when farmer takes the corn and stock and ferments it as a high moisture feed.**
- **Corn silage is high energy and digestibility.**
- **Corn silage is easily adopted to mechanization from the stand crop to time of feeding.**

## **OUR SERVICES**

### **MAINTENANCE TIPS**

- **What is Silage factory**  
a factory which produces of high quality silage bales by harvesting corn in fields, makes compact silages bales which server as feed for milching animals.
- **Social benefits**
  1. Changing the crop cycle from wheat- paddy to wheat-maize helps in saving water. 1kg of paddy production required 5000 Liters of water viz. a viz. 1 kg of maize requires 900 liters of water.
  2. Buyer of Maize is available at farmer's doorstep.
  3. Silage improves animal health and hence reduces the medicine cost at dairy.
  4. Easy availability of quality feed in fodder scarcity period increase the profitability of lean penods.
  5. Silage increase in production of milk of dairy thereby increase of profitability
